RETIREMENT SYSTEMS

BILLS PROPOSE  
CHANGES IN  
RETIREMENT  
LAWS

The Interim Study Committee on Public Retirement Systems held its final meeting November 10, 1980, to review draft legislation. Two bills, LC 152 and LC 358, were accepted for recommendation to the 47th Legislature.

LC 152 provides an automatic cost-of-living increase and a minimum monthly benefit to certain members of the Public Employees', Teachers', Highway Patrol, Sheriffs', Game Wardens', and Municipal Police Officers' Retirement Systems. The increase is based on a percentage increase in the Consumer Price Index applied to a portion of active employees' salary. The minimum monthly benefit is \$350 or \$500, depending on the retirement system's social security coverage. Both the increase and the minimum benefit will be funded through employee and employer contributions, appropriations from the general fund and coal tax trust fund interest, driver's license fees, and insurance premium taxes.

LC 358 increases the state contribution to the disability and pension funds of the fire department relief associations. The bill also funds the escalator provision for service, disability, and survivorship pensions from the insurance premium taxes for firefighters retired after July 1, 1973.
